1.	Comment. Prior to 10 October, the units of the 18th Mech Div returned to their posts from the maneuver of the Third Shock	25X1
	Army and the Jittstock training grounds.  The present information indicates that the 33d Tank Regt returned to its previous quarters in the Alte Kaserne in Parchim. The regiment is equipped only with T-34 tanks and heavy SP guns and not with JS tanks. The 60th Mech Regt of the division presumably returned to the Neue Kaserne (5322) in Parchim where it was also	25X1
	stationed prior to the summer training period.	
2.	Comment. Another report indicated that the units of the 18th Mech Div returned to their previous quarters in Perleberg prior to	25 <b>X</b> 1
	9 October. The tanks may have belonged to the 120th Extrcl Bn. It is undetermined whether the field howitzers belong to the 1054th How Arty Regt or the 592d Mort Regt. It is	25X1
	possible that a medium mortar battalion of the latter unit was replaced by a field howitzer battalion as was observed with several	25X1
	mortar regiments in the zone.	25 <b>X</b> 1
3.	Comment. observations at the posts, the bulk of the 136th Gds Hv Tank SP Regt of the Third	25 <b>X</b> 1

	Rifle Corps in the Artillerie Kaserne after 7/8 October.  According to the present information, not all components of the last two units were present at the Artillerie Kaserne on 21 October.	25 <b>X</b> 1

5.	Comment. According to the motor vehicle the artillery units belonged to the 1st Lech Div and presumably transferred to the Jueterbog training grounds for firing practices.	25X1
